EDUCATION

New York University | *Courant Institute of Mathematical Sciences* - **New York, NY** *September 2022 - May 2026*
B.A. in Computer Science | Minor in Web Programming and Applications
Relevant Courses: Data Structures, Computer Architectures, Basic Algorithms, Operating Systems, Software Engineering, Agile Development and DevOps, Artificial Intelligence, Computer Networks

TECHNICAL EXPERIENCE

TikTok | New York, NY
IT Support Specialist *April 2026 - Present*

- Provide Tier 1 and Tier 2 endpoint support across Windows, macOS, iOS, and Android, troubleshooting hardware, software, networking, and connectivity issues across NYC and Chicago offices.
- Manage IT asset and device lifecycle operations, including laptop imaging, provisioning, deployment, inventory management, asset auditing, device returns, and hardware repairs through Apple GSX.
- Provide remote and onsite support including new hire onboarding, device configuration, user training, enterprise application support, SOP development, and Service Desk ticket resolution.
- Serve as the primary IT point of contact for building events and conference room technology, handling AV inspections, equipment setup, and troubleshooting.

NYU Stern School of Business | New York, NY
IT Support Lead - Classroom Technology *January 2024 - April 2026*

- Led Tier 1 and Tier 2 incident response, diagnosing hardware, software, and network issues across classroom systems, reducing operational downtime by 20%.
- Supported AV systems, instructor workstations, and network-connected devices across multiple lecture halls.
- Managed IT asset inventory and device lifecycle tracking, maintaining compliance with security policies.
- Documented troubleshooting procedures and trained IT staff on support workflows and AV systems.

IT Help Desk Analyst *August 2023 - January 2024*

- Managed IT support tickets through ServiceNow, Genesys, and ServiceLink, resolving hardware, software, and connectivity issues for faculty and staff.
- Diagnosed recurring technical issues and performed root cause analysis, improving support workflows.
- Performed system checks and infrastructure audits to maintain operational classroom and office technology.

PROJECTS

WeensyOS - Virtual Memory and Process Isolation | C, x86-64, QEMU, gdb April 2025

- Built kernel memory isolation and per-process virtual address spaces in a teaching operating system by modifying page table mappings and access permissions.
- Added virtual page allocation and overlapping address spaces, enabling processes to map different physical pages at the same virtual addresses.
- Implemented the fork() system call by copying page tables and duplicating writable user pages.
- Debugged low-level kernel and memory faults using QEMU, gdb, assertions, and log-based tracing.

Resume Analyzer - Microservices Resume Evaluation Tool | FastAPI, Flask, Docker *April 2025*

- Led a team of four engineers building a resume analysis platform using FastAPI, Flask, MongoDB, and Docker.
- Built CI/CD pipelines with GitHub Actions, achieving 80%+ code coverage and reducing deployment time by 70%.
- Coordinated Agile sprint planning, standups, and code reviews.

TECHNICAL SKILLS

Programming Languages: Java, Python, C, JavaScript, Bash
Frameworks & Libraries: React.js, FastAPI, Flask, Express.js, Tailwind CSS
Tools & Platforms: Docker, Git, MongoDB, PostgreSQL, SQLite, VS Code
IT Systems & Infrastructure: Windows, macOS, iOS, Android, endpoint support, hardware diagnostics, network troubleshooting, AV systems, IT asset management, device provisioning
IT Service Management: ServiceNow, Jira, Genesys, ServiceLink, ticket triage, incident management, root cause analysis, technical documentation, Apple GSX
Enterprise & Collaboration: Google Workspace, Zoom, Slack, Microsoft Office

CERTIFICATIONS

CompTIA A+ *September 2026*
